EDUCATION

UNIVERSITY COLLEGE 'HELHA'

*Bachelor's degree in Computer Science and Systems | Graduated with **distinction***
2021 - 2024 --- Charleroi

UNIVERSITY OF LILLE

Bachelor's degree in Applied Foreign Languages for Business | Admitted to the second year
2020 - 2021

As a Junior Developer, I'm passionate about creating digital solutions that are both practical and well-designed. I thrive in collaborative environments, love learning from others, and enjoy seeing my skills grow through hands-on experience with real projects.

PROJECTS

MULTI-CLOUD MANAGEMENT APPLICATION   2024
Internship - Audaxis Contraste Europe

- Integration of an application for managing server instances with multicloud compatibility.
- Stack : Typescript, React, REST API

COLOR SORTING DEVICE   2024
HELHa Charleroi

- Designed a color sorting device with a mobile app allowing remote control
- Stack : C++, Arduino, React Native

SECURE PLC REMOTE CONTROL AND DATA MANAGEMENT   2024
HELHa Charleroi

- Implemented secure PLC remote control and data management using MQTT and VPN integration.
- Stack: JavaScript, Java, MQTT

AI CHATBOT   *currently under development*
Personal project

- Developing an AI chatbot based on natural language processing
- Stack : Python (with PyTorch, NumPy, NLTK)

PROFESSIONAL EXPERIENCE

- Various non-IT jobs (hospitality, logistics, farm work)
  Belgium, France & Australia (2017-2020)

These experiences, though outside of IT, helped me develop essential soft skills for team-based and international environments, such as communication, stress management and adaptability.
